

BEMEDTECH CONFERENCE TOWARDS MORE VALUE-BASED HEALTH CARE IN BELGIUM ?

2 FULL DAYS CONFERENCE
OCTOBER 12TH & 19TH, 2021

DEN BERG, BERGKAPELSTRAAT 98,
1840 LONDERZEEL

Our health care system is under great pressure and the COVID-19 crisis makes it even clearer that we need to rethink the current model to ensure a more sustainable, affordable and patient-oriented health care system. The continuous evolution towards a Value-Based Health Care (VBHC) approach will be an essential part of the solution.

During this 2 full days conference, expert speakers will share their knowledge on VBHC, dive into the actual state of play in Belgium and other countries and share their views on the way forward for Belgium.
